NPIC/TDS/D-633-67  
19 January 1967

MEMORANDUM FOR: Executive Director, NPIC  
THROUGH : Chief, Support Staff, NPIC  
SUBJECT : Request for Codeword Security Clearances

1. It is requested that the following person from [redacted] be granted T, KH and SI clearances:

[redacted]

[redacted] has been granted an Agency TOP SECRET clearance with the effective date of 9 December 1966.

2. [redacted] is the Project Manager for the work [redacted] is performing as a sub-contractor to [redacted] on contract no. [redacted] titled [redacted] Imagery Exploitation Program. Within this program [redacted] has been assigned the following specific areas of investigation: [redacted]

3. The [redacted] Imagery Exploitation Program is a long-range, complex program which involves many people and includes many individual projects. The work performed under this contract must be realistic in terms of NPIC requirements, and the ultimate results must be compatible with NPIC operations. The 12-month contract is now past the half-way point and to date no one from [redacted] has been granted the level of clearance that representatives of the principal contractor [redacted] and the other two sub-contractors [redacted] were granted at the beginning of the program. Therefore, it is essential that [redacted] be granted the above listed clearances so that he, too, may become intimately knowledgeable of NPIC requirements, materials, and the methods of exploitation currently in use at NPIC and those planned for the future.
